VII. Read the passage carefully then answer the questions. (1 pt)

One of the most important discoveries of the nineteenth century was a method of using natural gas for cooking and heating. Large amounts of natural gas found in the United States, usually several thousand feet below the surface of the earth.

For many years after natural gas first discovered, it was thought to have no value. Finally, however, people began to understand its uses and to find ways of storing it and of moving it from place to place.

Today natural gas is stored in large tanks and used for lighting, cooking, and heating. In many ways, natural gas is one of our finest fuels. It is cheap and can be used for cooking without making the room hot. It can be moved easily from one place to another through long pipelines, some of which are hundreds of miles in length.

1. Was natural gas first used for cooking and heating in the nineteenth century?

2. How is natural gas stored?

3. Why is natural gas one of our finest fuels?

4. How can natural gas be moved from one place to another?

VIII. Rewrite the sentences so that it means the same as the first one, beginning with the given words. (0.5 pt)
